KÜCHEN

# ADDED VALUE FOR YOUR PLANNING

Excerpts from our comprehensive  
added-value range

# Would you prefer things more digital?

Everything digital. Everything immediately. From kitchen photos to delivery information – our Media Portal and CIS are your direct line to all data.

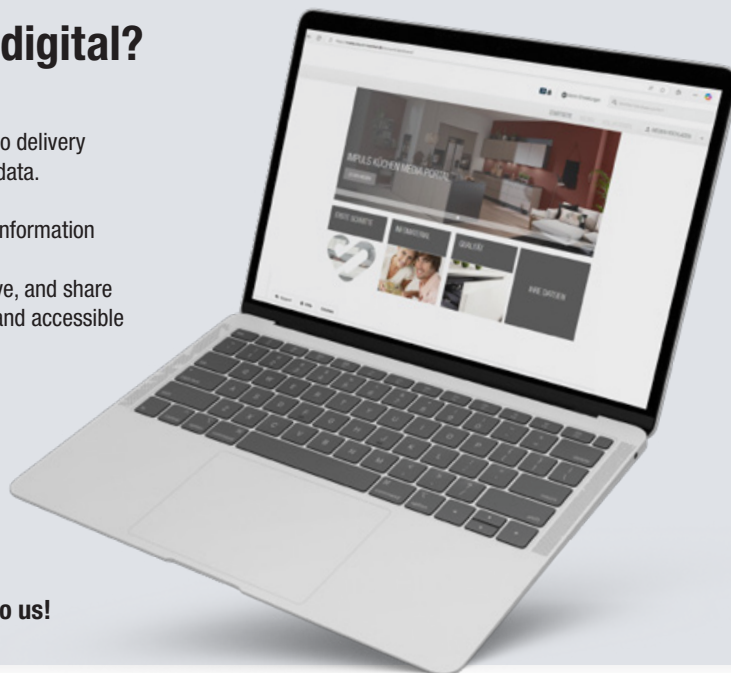

**CIS:** You will find the latest order data, delivery times, and other information in our Customer Information System.

**Media Portal:** Our media portal makes it easy for you to find, save, and share images and information via email – it is fast, user-friendly, free, and accessible at any time.

## E-Paper:

- Sales manual and appliance catalogue
- Brief type overview (specially for new customers)
- Available online
  - » 24/7
  - » Customer sales manual with personal login area
- Platform-independent
- Link can be provided as pure HTML format for integration into your own intranet

**Talk to us!**

## Directions

### Installation

You will find information on assembling our kitchen furniture in our assembly instructions. These are available as a PDF document for downloading on our website in the Service section under Downloads.

### Safety and care instructions

We have created care instructions for the materials we use and how to maintain their value, as well as information on daily maintenance to ensure that you can enjoy your kitchen for a long time. You will find information on this on our website in the Service area under Downloads.

Please give the care instructions to your customers.

## Planning

### Score points in sales conversations with just one click

CARAT productinfo gives you direct and quick access to sales manuals, product videos, model descriptions and much more – conveniently and directly in the planning software. Soon, you will also be able to benefit from additional new applications that will support you in planning and simplify your work.

### Also, you can already take advantage of our other tools, such as:

- CARAT Item Exchange
- CARAT MultiQuickKlick
- CARAT Product Info
- EDI

## Highlights

### Contemporary and well-thought-out product range

- Good ideas should not fall apart just because of restrictive specifications

### Quick and easy planning

- Our innovative programs and tools enable us to support you in planning your dream kitchen efficiently and conveniently.

### Fast delivery

- We deliver within just a few weeks. Guaranteed. On special request, even within just six Impuls working days – anywhere in Germany.

### Services

- Digital kitchen planner, product videos, an easy complaint management process – we provide you with the service you need.

### Easy installation

- A good kitchen is many things, but not complicated to assemble. At least not when it comes from Impuls.

## Campus

### Find out about our seminars – learning with added value

Whichever seminar you choose, they all have one thing in common: you benefit from practical content taught by experienced and motivated trainers. Exchanging ideas with other participants opens up new perspectives – and, as an aside, makes learning more enjoyable.

We have clearly structured our seminar range so that you can find the right course quickly. More on our website.

- In the carcase base shelf instead of the handle profile.
- Extra-charge version per cabinet

### LED built-in light in the base shelf

- Including channel routing
- Straight aluminium profile
- Extra charge per cabinet

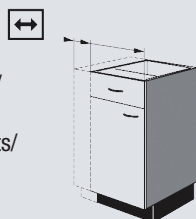

## Custom-made solutions

Custom-made solutions give you the opportunity to adapt cabinets precisely to your spatial conditions and personal needs. Whether reducing the width or depth or deepening the carcass sides – targeted customization at a low additional cost creates tailor-made storage space that combines functionality and design to perfection. This enables you to use every last centimetre efficiently and to create a harmonious solution, even when the shape of the space is unusual.

1

### Width reduction

- for base units with drawer/side-hung door
- for base units with pull-outs/side-hung doors
- for tall units/highboards
- for individual parts of a cabinet (except carcass)
- » possible for any width of drawer and pull-out between 30 and 100 cm

2

### Depth reduction

- Cabinet-dimension reductions with millimetre-precision

3

### Carcass side depth increases

Side depth increases for uneven walls, for example

4

### Visible side

for base units, wall units, highboards and tall units

## Units for special solutions

### Tall unit with carrier frame for bottle crates

- 3 carrier frames
- Cabinet width 600 mm

### Tall unit with Tandem-Solo

- The set-down trays slide out when the doors are opened.
- Baskets with wooden base and metal rail
- Cabinet width 600 mm

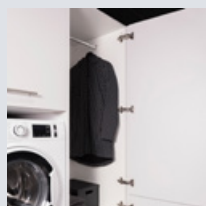

### Tiny kitchen

- 2 functions in one cabinet. Here: fridge and oven

### Behind the door

- Easy to order by combining sets
- Various sets in the range

### Tall unit with clothes rail

- Carcass side depths of 560 and 660 mm available

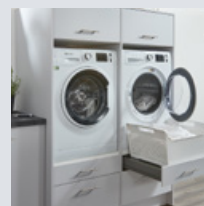

### Base unit for robot vacuum cleaners

- For 600 mm wide cabinets

### Tall unit for organisation system

- Different organisation elements for tailored cabinet equipment

### Module cabinet

- for raised washing machines/dryers
- As a set with end panels

# Product range C

Custom design with handle profiles

IMPULS gives you maximum design freedom: With tall units, it is easy to combine horizontal and vertical handle profiles without side panels. In this way you can create not only a functional but also a visually appealing overall look – entirely to your own taste.

Light, practical, compatible

The high-quality aluminium construction of our split dish-washer front makes it significantly lighter than comparable models.

3 tall unit heights

**Flexible in three heights.**

We can provide you with a tall unit height that fits into your kitchen design perfectly.

## Cabinet equipment

The cabinet with both a drawer and two pull-outs is a true highlight. Convenient, practical, clever.

## Panels

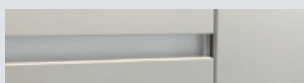

Panel / corner panel with split fronts

## Times savings during installation

- Tool-free installation of the handle profile

## 4 grip ledge colours available

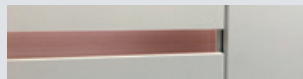

960 Recessed grip stainless steel effect

970 Recessed grip black

980 Recessed grip white

990 Recessed grip copper effect

## Tested quality

## SUSTAINABILITY AND ENVIRONMENT

We don't just talk about sustainability, we also live and breathe it. For example, by installing a PV system on the roof of our headquarters. This generates more electricity than we actually need. This is just one way in which we are actively protecting the environment. And we provide solutions that are aimed for the longer term - just like our kitchens.

### Our PV system at a glance

- Around 11,900 modules that can generate a power of up to 4.6 megawatts are installed on our roofs.
- We use this system to generate around 4.3 million kilowatt hours of electricity per year saving around 2,545 tonnes of carbon emissions.

### Top of the league

- Our rooftop PV system is the largest in the Sauerland region and the third largest in the state of North-Rhine-Westphalia.
- In fact, the system is one of the top 20 largest rooftop systems within the entire country of Germany.

### Heating with system

- We operate our own solid-fuel incineration plant with an output of around 3 million kilowatt hours per annum.
- This enables us to cover around 85 percent of our average heating needs ourselves.

## The express kitchen!

Reach your goal in no time: With our kitchens, the fun begins straight away. Our express delivery service within Germany is simply unbeatable in terms of speed and service quality. And the best thing is that all our kitchens can be planned freely and individually. So: what are you waiting for? Better get started right away!
